

Unity 3D

For this camp you will need a personal computer capable of running the Unity application. Minimum computer requirements are listed below. You will also need a mouse, webcam, and a headset to attend the Adobe Connect live meetings with your instructors.

PC (right click My Computer icon > Properties)

- Windows 7 or higher (64-bit versions)
- Graphics card with DX10 (shader model 4.0) capabilities (type “dxdiag” on the search bar to check the version of your DX version (DX = DirectX))

Mac (click Apple icon > About this Mac)

- Sierra (10.12.0) or higher

Download the free “Personal edition” before the start of camp.

- <https://store.unity.com/download>
- You must “Accept the terms” in order to download the software

Adobe Connect

Test your connection before attending camp:
